

CORNEL VINTILĂ

CHAIRMAN OF THE BOARD

Cornel is committed to the development of the AURACHAIN, helping to establish innovative strategic directions that have favored the business expansion.

As serial entrepreneur with relevant projects in telecom, software industry, GIS, industrial engineering including IOT and business process management, he has gained a relevant experience as enterprise architect and has more than 30 years of experience in management and business development.

At present, this experience has helped define the new strategic direction of AURACHAIN's development towards blockchain industry, smart contracts, a platform economy based on positive ethics ecosystems.

Cornel holds a Masters in Telecommunication Management - from the Cable & Wireless College in the United Kingdom, and Master in Electronics and TC - from the Polytechnic University of Bucharest, Faculty of Electronics and Telecommunications.

His hobby is "the research and development of neotech business in niche markets".
