

A dark blue world map is centered in the background of the slide. A diagonal line runs from the top right corner towards the bottom left, separating the dark blue map area from a white area on the right. A thick orange horizontal line is positioned below the main title.

Property Leasing

Blockchain applied to Real Estate

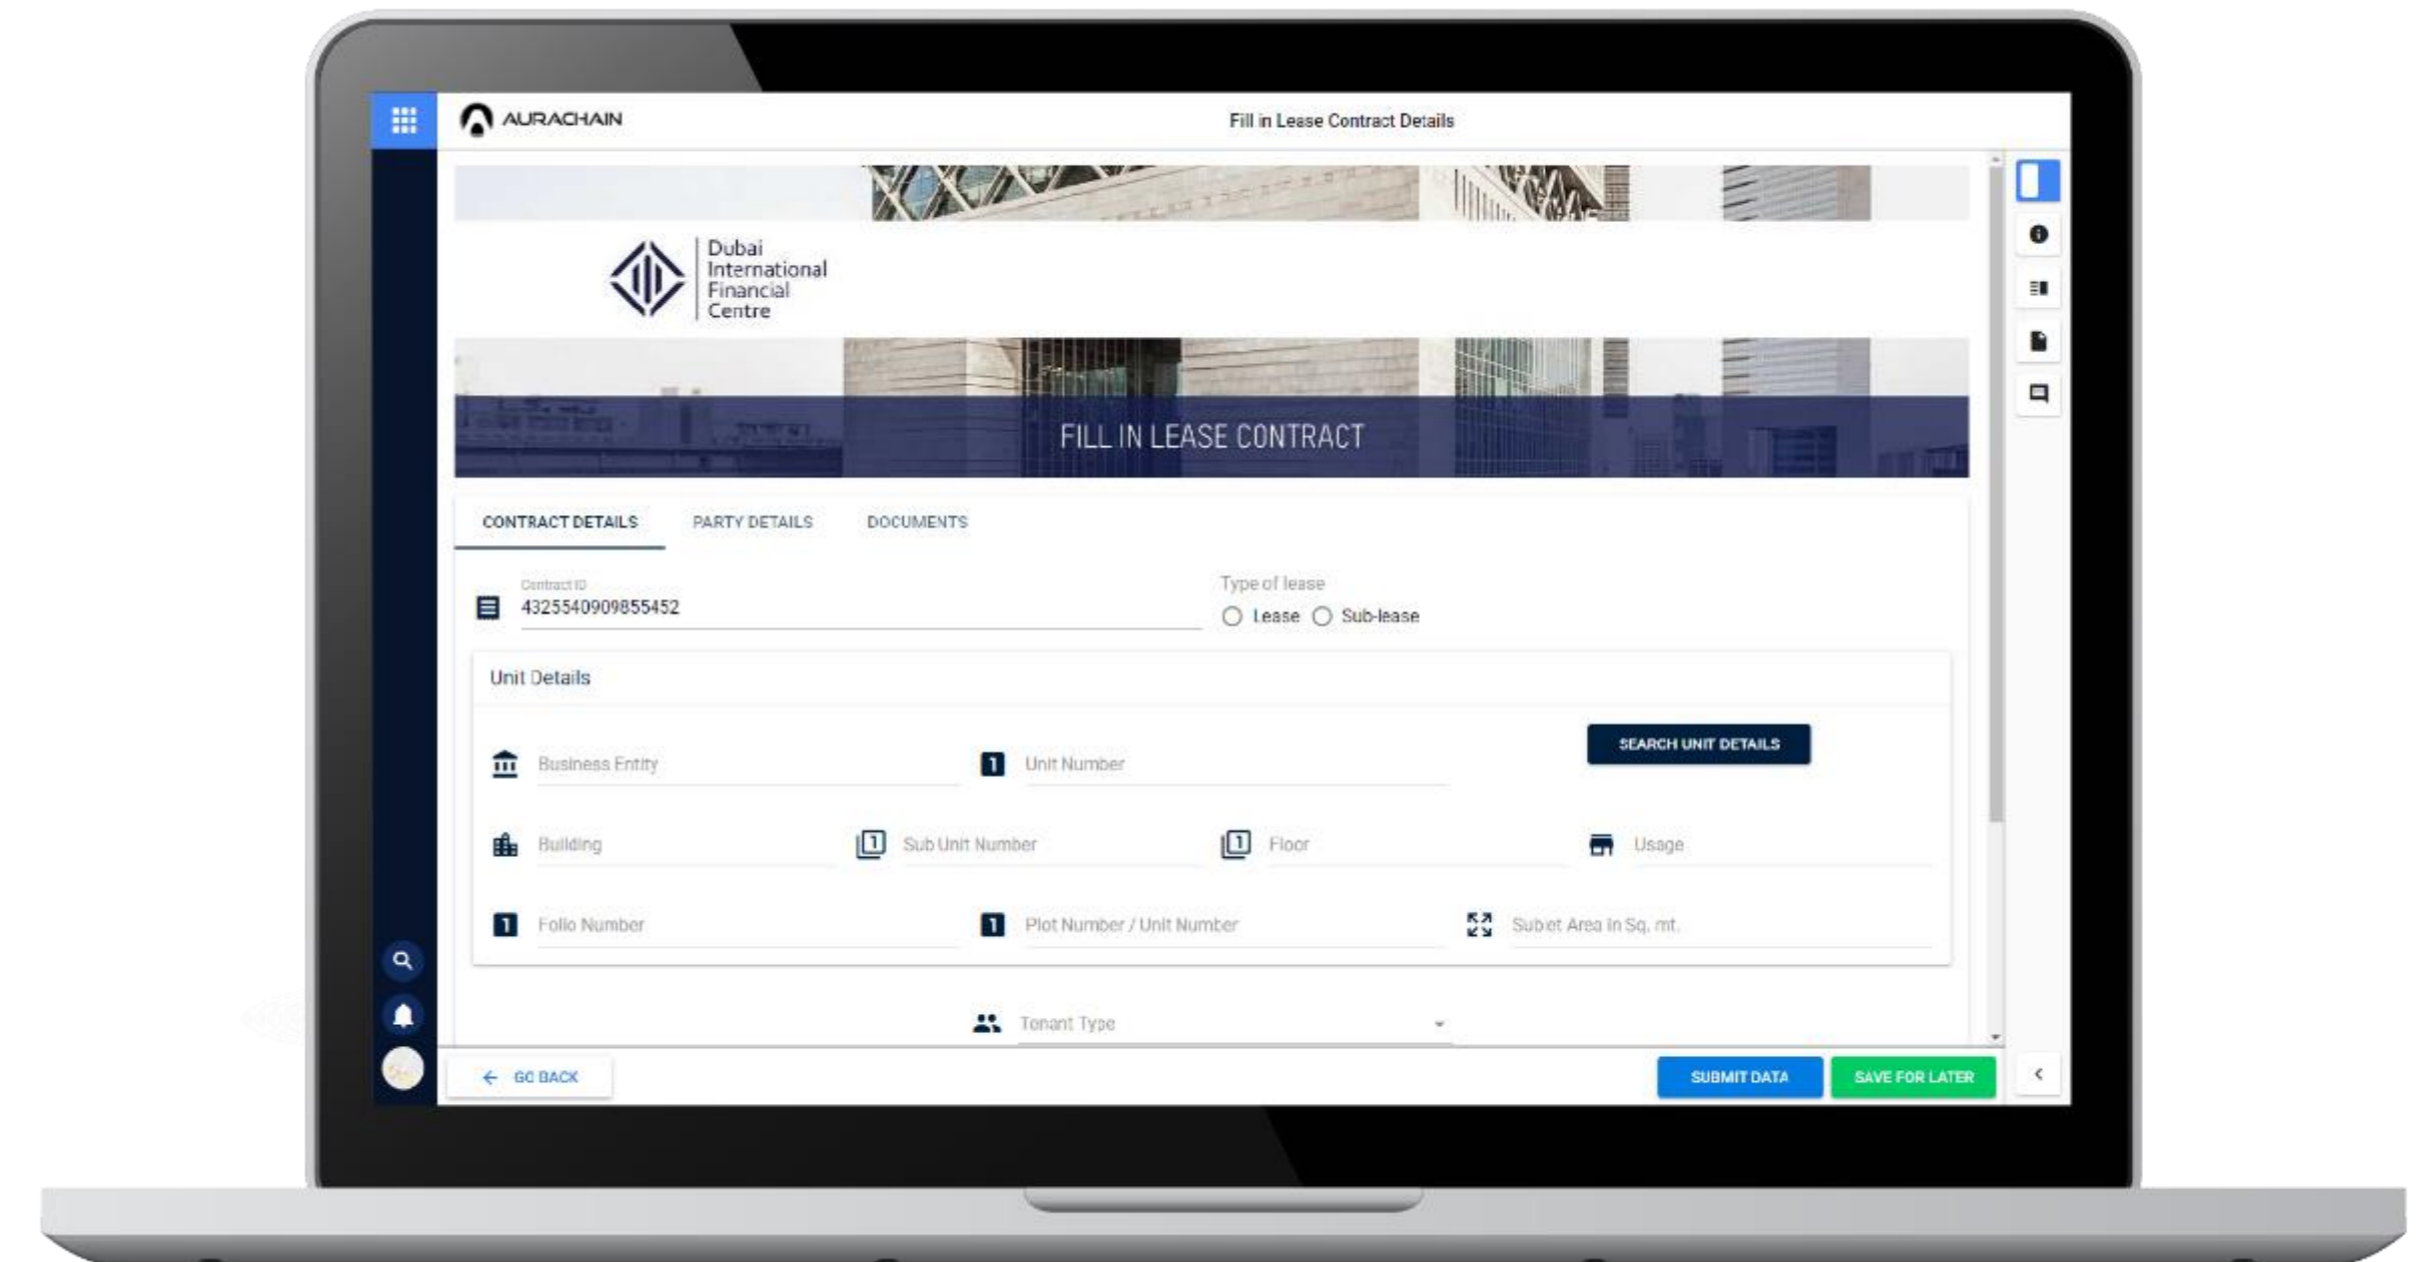

REAL ESTATE PROPERTY LEASING

WHAT IT IS AND WHO DOES IT ALIGN ?

A self-executing smart contract that orchestrates and covers the full lifecycle of lease registration process - the leasing of commercial and residential units to tenants.

WHAT DOES IT COVER ?

- Identification and registration with the management entity;
- Consensus and registration of lease terms between lessor and lessee;
- Confirmation of proof of ownership and unit availability and the official registration within the Dubai Free Zone.

WHAT DOES THE SOLUTION ELIMINATE?

- Eliminates the need for f2f identity checks
- Eliminates manual checks on unit availability and therefore, potential for errors
- Reduces opportunities for fraud, through confirmation of proof of ownership
- Eliminates paper generation throughout the lease registration process, reducing errors and cost

Thank You!
